Your pathway to health

GUARANTEED SAFETY, QUALITY AND PROVEN EFFICACY

Over 25 years ago our company, BIOVIT IMPEX, started to bring natural supplements from Canada to the Czech market. These leading producers of vitamins and food supplements in Canada offer more than 50 years of tradition and we are proud to continue to be a part of this history. Our products are manufactured using the latest technologies, guaranteeing the highest quality standards from raw materials to the final product. **Our manufacturers test each batch of supplements under the strict supervision of Health Canada regulations.**

In 2018, we launched our NATUREVIA® brand packaging – a new, original, and unmistakable brand that reflects the essential characteristics of our products, their natural essence, and origin.

- **Natural raw materials** are the basis for our products, providing for unique absorption and effectiveness.
- **Ensuring absolute quality** from raw materials to finished products (Total Quality Assurance).
- Scientific research and development.
- **Guaranteed** stability and content of active substances.
- Quality proven by more than 50 years of tradition.

Our products do not contain chemical preservatives or artificial colours or flavours. Almost all of our products are suitable for people with special dietary needs and meet the requirements of even our most demanding customers.

Sleep and rest

Valerian has been used as an effective natural sedative since ancient times. It contains substances that increase the level of the naturally occurring gamma-aminobutyric acid (GABA) neurotransmitter, which affects the central nervous system. Regular use of Valerian attenuates anxiety and mental tension, improves sleep, and prevents premature waking.

NATUREVIA® SLEEPNOX forte

CONTAINS in 1 capsule	Valerian (<i>Valeriana officinalis</i>) 600 mg, hops 340 mg, passion flower 300 mg, lemon balm 600 mg
DOSAGE	1 capsule DAILY, 1/2–1 hour before bedtime
PACKAGING	30 capsules

DIGESTIVE SYSTEM PROBIOTICS LIVER AND DETOXIFICATION

A NEW GENERATION OF PROBIOTICS

Naturevia® probiotics contain balanced combinations of mutually compatible strains of living lactic acid bacteria for colonisation of the entire intestinal tract: lactobacilli (for the small intestine) and bifidobacteria (for the large intestine). Lactobacilli and bifidobacteria are natural parts of a balanced intestinal microflora that **ensures proper digestion and immune function**. They are recommended **during and after ATB treatment and while travelling**.

BIO-SUPPORT protective technology significantly increases the viability, durability, and stability of the bacteria and guarantees the administration of fully active bacteria to the intestines.

THE NORMAL BALANCE OF MICROFLORA MAY BE AFFECTED AFTER THE USE OF ANTIBIOTICS OR CHANGES IN ENVIRONMENT OR FOOD WHEN TRAVELLING. INTESTINAL BACTERIA SHOULD BE SUPPLEMENTED.
